To Whom It May Concern,

As a General Contractor it is my pleasure to recommend Cleavenger Masonry for Masonry projects on both Public and Private projects. Cleavenger Masonry (CMI) has completed multiple successful projects for WCA ranging from \$20,000 to \$1,000,000 dollars on time and without chasing change orders. Cleavenger Masonry has been proficient at keeping up with all aspects of CALOSHA and public work requirements including paying proper prevailing wages, filing certified payroll with the DIR, providing apprentice's and skilled and trained workforce requirements.

Cleavenger Masonry is a family owned and operated company in both the office and field. It is always a pleasure to work with Andrea, Shayne and Mark as their family values are evident in CMI's attention to detail, quality, and safety practices. Working safely requires a serious commitment by everyone and CMI always is a team player striving for the highest safety standards.

CMI is always responsive to WCA and our client's needs and requests and in every instance CMI has provided WCA with well managed projects that were completed on time and within budget.

It is without hesitation that I highly recommend Cleavenger Masonry for any and all Masonry projects.

Sincerely,

James Clower  
President  
West Coast Air Conditioning Company Inc.
